

THROW BODIES INTO THE GULF

Mode of Burial In Galveston to Escape Death by Pestilence.

HORROR GROWING FAST

Deaths Number 3,000 and the Property Loss Will Reach Over \$20,000,000.

AN APPEAL MADE FOR AID

Houston, Texas, Sept. 11.—[Special Telegram]—Refugees from Galveston early this morning says that the dead in the stricken city are being taken out in the gulf in barges and tossed into the sea. This mode of burial in necessary to save the living, who would otherwise be threatened with death by pestilence. Every report from Galveston makes the situation look more horrible. Scores of persons today were brought here by the Santa Fe first relief train.

Many of the rescued floated all night Saturday. Twenty-five were removed to the infirmary.

The relief party report in many places homeless persons were found sitting on the wreck of their household goods and others were housed in empty boxcars.

Every building in Pearl is either damaged or destroyed, but no lives are reported lost.

At Alvin and other towns many deaths are reported.

At Hitchcock two Italian families of thirteen were lost, twelve by drowning. The prairies are covered with drift of all kinds, dead cattle, buggies, wagons and sailing craft.

Searching parties found a dozen bodies in Hall's bayou and buried them.

A prominent business man of Galveston this morning said he had just heard direct from his house that there is no hope for Galveston. The city is completely ruined as a seaport. No insurance can be collected.

The property loss will be \$20,000,000, and the dead approximate three thousand.

THE STRICKEN CITY ASKS FOR AID

Homeless Galveston People Walk Streets Stripped with Dead

Houston, Tex., Sept. 11.—Later dispatches show that the tempest and floods which swept over Galveston and the coast country of Texas on Saturday and Sunday night probably caused the greatest tragedy of the century. The dead of Galveston will number 1,000; the number of dead in the coast country will not be known for several days or maybe a week, but as each small town is heard from the story is of three dead, five dead, ten dead, fifteen dead, and so on. The settlements off from the more easily reached towns are as yet inaccessible.

The state of Texas will act through the person of Governor Sayers, but the tragedy is so appalling, its money loss so great, that the aid of the people of all the Union may be needed. It is estimated that between 4,000 and 5,000 buildings in Galveston have been destroyed. Of those that stand many will have to be torn down as a matter of safety. To bury the dead will be a task of several days.

The whole south side of the city from end to end was stripped of every vestige of habitation from the shore line to a point 1,000 feet north. Few, if any, buildings escaped injury. The dead from the graves were washed up and cast out upon the waters, and the shore of the bay is littered with corpses, while eight ocean steamers and many small craft were torn from their moorings and left stranded miles away from the city, some to bleach and rot.

It will be a month perhaps before a train can reach Galveston and all communication will have to be by boat.

Lieutenant Colonel C. S. Roberts, adjutant general, department of Texas, who was in Galveston on a tour of inspection, may have been among the victims at the fort. Of the 120 soldiers there only 15 are known to have escaped.

The loss to the owners of buildings, merchandise and personal property probably will prove total, as little or no tornado insurance was carried. Every industrial establishment either was destroyed or so badly damaged it will be weeks before operations can be resumed.

The cutting off of the water supply from the city adds to the distress. It will be necessary to haul water for drinking and cooking purposes for the 40,000 residents 20 miles until arrangements can be made to repair the system.

tem. The city is in darkness and without fire protection. The wreck of Galveston was brought about by a tempest so terrible that no words can describe adequately its intensity, and by a flood which turned the city into a raging sea. The living, half-dazed, are walking the streets, which are strewn with corpses. An appeal has been made to the nation for aid.

Richmond Churches Wrecked. Richmond, Texas, Sept. 11.—The most terrific storm that has ever visited this section of the state struck this town Saturday night at 10:30 o'clock destroying everything in its path. There are only a few houses in the town that were not damaged. Many buildings were demolished, destroying stocks of goods. The court house was damaged. The Baptist church is a total wreck, while the Methodist church is almost destroyed.

Three lives were lost in the colored Baptist church, Henry Ransom and two children, colored. One person was killed at Booth and four lives were lost at Beasley.

Eagle Lake Damaged. Eagle Lake, Texas, Sept. 11.—Three churches, together with many houses, dwelling and business, were blown to pieces.

The rice crop and the pecan crop are ruined. The cotton crop is nearly ruined, the cane crop is considerably damaged. The loss to this community from the storm is estimated by the most reasonable citizens at about \$250,000.

HANNA IS MAKING NO PREDICTIONS

CHAIRMAN OF NATIONAL COMMITTEE WORKING HARD.

Declares the Real Issue of Campaign Is "Present Prosperity Against Bryanism."—Admits That New York Is Doubtful In the Sense That It Cannot Be Called Certain.

Chicago, Sept. 11.—Senator Marcus A. Hanna, chairman of the republican national committee, is not chasing rainbows. He came to Chicago yesterday to take hold of the campaign with firm hand and insist that there shall be a hard fighting from this time forward. Chairman Hanna has been studying the political situation in the East and that of the whole country, as reported by him. He sees danger in the overconfidence of the people who are prosperous and too busy to give time to politics.

Danger In Overconfidence.

"Overconfidence is responsible for the apathy so far manifest in this campaign," said Mr. Hanna. "Everybody is busy and prosperity is general. The people are satisfied with the existing conditions. They are satisfied to let well enough alone, and they are confident that there will be no change. They do not all realize, however, that confidence does win political battles. There are nearly 500,000 republican voters so confident in 1892 that President Harrison would be re-elected that they did not take the trouble to go to the polls. Their negligence, due to over confidence, cost the republican party that election."

Democrats are Desperate.

"We are facing the same conditions in this campaign. The republicans are confident and the democrats are making a desperate fight to win. The national committee knows the plan of battle of the democrats. We know that they are planning to recapture Kentucky, West Virginia, Maryland and Delaware, carry New York and Indiana and elect Mr. Bryan. These states all should be republican this year as they were in 1896. But they are not sure republican states. They are to be won, and they are, therefore, doubtful in that sense."

"Do you admit New York is a doubtful state?"

New York Doubtful.

"I admit that New York is doubtful in the sense that the republicans cannot set it down as certain to give its electoral vote to McKinley. We must fight for New York. We know that Mr. Croker has made a deal with Bryan. He will be loyal to Bryan and he will make his assessments upon all the interests that are in his power. He can command ample funds to wage a great campaign."

"Is Indiana doubtful?"

"In the same way, yes. We cannot set down Indiana as a sure republican state, because the democrats are making a desperate effort to carry it. Indiana has never given large majorities. It has alternated between the parties. The republicans can claim the electoral vote only after they have decided to make as hard a fight as the democrats."

Republicans Must Work.

"If republicans sleep they will be beaten. I do not desire to be regarded as an alarmist, but I am intrusted with the conduct of this campaign for the republicans and I want them to realize that there is always grave danger in overconfidence."

"We have a fight on our hands and unless we are willing to fight as hard as the opposition we are in danger of getting whipped."

Sixteen Cases of Plague. Glasgow, Sept. 11.—An official bulletin, issued today, shows an additional case of the bubonic plague has been reported. The total today shows sixteen cases and 112 persons under observation.

MR. M'KINLEY WILL ATTEND A WEDDING

MARRIAGE OF HIS FAVORITE NEICE MABEL TOMORROW.

President and Party Are In the Small Town of Somerset, Pa., Where the Bride Lives—Beautiful and Costly Presents Being Sent to the Bride—Town Is Keenly Alive.

Somerset, Pa., Sept. 11. President McKinley and his small party reached here last evening to attend the wedding of Miss Mabel McKinley to Dr. Hermann Baer, which will occur tomorrow.

This little town is keenly alive to the distinction of the events of the week are giving it, and the efforts of Abner McKinley and his family to make the wedding a "quiet affair" are not meeting with success. Newspaper men and photographers keep the door maid busy, but they are all turned away.

The single expressman of the town has given most of the time of late to carrying packages to the McKinley home, and as the result of his labors one room has been filled with beautiful and costly presents sent to the bride.

They include a magnificent silver service from President and Mrs. McKinley, jewels, gold, silver and cut glass tableware, dainty china, and no end of handsome bric-a-brac.

Mr. Baer is a young giant, stands 6 feet 2 inches in his stocking feet, and strong as a sandow. Miss McKinley, while plump and apparently in good health, is slightly lame and is likely to become an invalid.

What led to the love match between the young couple cannot be told. The McKinley family have been going to Somerset during the summer for more than 15 years. They have a handsome residence and a well equipped stable, of which Abner McKinley is proud. Miss McKinley has known Hermann Baer

HERMANN BAER, groom, who is the son of a country lawyer, since childhood, but they were not on more than friendly terms until two years ago.

Miss McKinley was courted by many swells in official circles in Washington, including attaches of several foreign legations. She is said to have been something of a coquette.

Young Baer was born in Somerset and is 25 years of age. Up to two years ago he lived in the village. He was a drug clerk, and his father provided funds to train him as a pharmacist. After graduation Baer decided to become a physician. His father sent him to Jefferson college, Philadelphia, and this spring he will have completed his course of study.

To some of his friends he has written that he intends to settle in Somerset and practice his profession. His father is opposed to this, as he believes that his son will make a mark for himself if he goes into a more active life than that of a country practitioner.

Roosevelt in South Dakota

Sioux Falls, S. D., Sept. 11. [Special Telegram.] Gov. Roosevelt's attempt to capture the Indian vote began this morning at Flanderau. At Madison Roosevelt spoke briefly from the platform of the depot. Here the rough rider's train was struck by a rain storm and the governor was almost drowned out of his berth.

New York Democrats

Saratoga, N. Y., Sept. 11.—[Special Telegram.]—The state democratic convention was called at noon. Temporary Chairman McCarren's speech consisted of a general attack on republican rule in this state. At the conclusion of the roll call the convention took a recess until tomorrow.

Cost of Street-Widening.

The widening of Ludgate hill, London, fifteen feet resulted in an expenditure at the rate of £2,000,000 per mile; the Fleet street widening, ten feet, £2,000,000 per mile, and the Strand widening, £6,000,000 per mile.

Cost of Government Building.

The public buildings of the United States have cost, since the foundation of the government, exclusive of the buildings in Washington and those employed by the army and navy, \$154,775,334. Of this the sites have cost \$22,755,167 and there remains \$23,843,575 to be expended on these buildings before they are completed.

GOV. ROOSEVELT ON HIS WESTERN TOUR

OPENS THE CAMPAIGN IN WISCONSIN AT LA CROSSE.

Says Election of Bryan at This Time Would Mean Only Misery and Humiliation—LaFollette Was Given An Equally Rousing Reception—Great Crowd Was In Attendance.

LaCrosse, Wis., Sept. 11.—Governor "Teddy" Roosevelt invaded Wisconsin yesterday and opened the republican campaign by making two speeches, one in the afternoon and one at night. While the Governor's Michigan tour was a triumphal procession, the beginning in Wisconsin promises even more than the Michigan trip. The entire population of LaCrosse and surrounding country turned out to greet him and the city was made bright with flags and bunting.

In his afternoon speech the Governor answered the democratic arguments on militarism, free silver and expansion. He spoke for twenty minutes and in concluding said:

"It would have been better to have elected Bryan four years ago and to have suffered the misery each and all of us would have suffered in the last four years—it would have been better to elected him then than now, when we have set our hands to the task of defeating him, than to flinch now and bring upon ourselves the misery and leave such a legacy of shame and dishonor for our children who come after us."

Senator Nelson Also Spoke

John Proctor Clark, Congressman Esch, who presided, and Senator Nelson also spoke at the afternoon meeting. The governor, owing to the heat in the rink, did not remain until the program of speeches was carried out, but left when he had finished. Afterward he drove about the city.

Governor Roosevelt addressed a great audience last night, and at 11 o'clock left by special train over the Chicago, Milwaukee & St. Paul for Sioux Falls. He was accompanied by Senator Nelson, and was joined at Sioux Falls today by Governor Shaw of Iowa. The two speeches were, in substance, the same.

The democratic mayor of La Crosse and the republican board of public works clashed when the mayor refused to raise the flag over the city hall in honor of the day. The board finally triumphed by hauling up the colors themselves and daring any man to haul them down.

LaFollette's Warm Greeting

Robert M. LaFollette came in on the Northwestern train at 12:25 o'clock and was given a welcome that was equal to the one accorded to the vice presidential candidate an hour and a half earlier. He was taken in charge by the reception committee and escorted by a cheering multitude to the Cameron house. He was accompanied on his journey from Madison by State Treasurer J. O. Davidson, Secretary of State W. H. Froelich and Railroad Commissioner G. L. Rice.

MRS. WELLS HAD A NARROW ESCAPE

Mrs. Blanche D. Wells who formerly had charge of the city hospital at Oak Lawn and is now assistant bookkeeper in the U. S. pension office in Milwaukee had a narrow escape from death by fire yesterday morning.

Mrs. Wells lives in the Davelaar flats. The room in which she was caught on fire and she was rescued with difficulty. The entire inside of the room was destroyed before the fire was extinguished. It is not known how the fire caught no details being given.

THE RESULT OF ELECTION IN MAINE

Republicans Carry the State by a Plurality of 31,700—Only One County Democratic.

Augusta, Me., Sept. 11. [Special Telegram.] Maine goes republican by 31,700 according to the returns so far received. Knox county the home of Congressman Littlefield has probably gone democratic.

DEATH OF MRS. E. S. BAILEY.

A telegram announcing the death of Mrs. E. S. Bailey of Clinton, Ia. a sister of Mrs. L. C. Sloan was received Monday noon. Mrs. Sloan immediately left for Clinton. Her death was not wholly unexpected she having been in poor health for some time. Mrs. Bailey was the wife of Major E. S. Bailey and formerly resided in this city. Major Bailey practiced law here in an early day being a partner in the firm of Sloan, Patten & Bailey with whom he was associated for many years. The funeral will be held from the family residence in Clinton, this afternoon.

Buller Reports An Attack.

London, Sept. 11.—[Special Cablegram.]—Gen. Roberts telegraphs that Buller reports an attack on a hill held by the Boers above Lydenburg Saturday, the fog compelling the British to cease operations. Sunday Buller occupied Mauchsburg.

LABOR ORDERS IN PORTO RICO

Report from There Say the Military Will Not Allow Them

New York, Sept. 11.—Labor leaders here have reported to the Central Federated union that they have received a letter from more than 100 representatives of Porto Rican labor organizations, who have been imprisoned in the municipal prison at San Juan, Porto Rico. The letter says that all labor organizations known to exist are being suppressed by the military authorities.

Henry A. Chittenden Dead.

Oakland, Cal., Sept. 11.—Henry A. Chittenden, a journalist of note and the man who secured for the city the \$50,000 Carnegie free public library, is dead of a throat affection, aged 54 years. He served as an editor on many eastern papers.

For fifteen years he was employed by James Gordon Bennett on the New York Herald and the Telegram.

McClelland Failing Fast.

Springfield, Ill., Sept. 11.—Gen. John A. McClelland is very much worse. He began growing weaker early this morning, and is now on a rapid decline. The attending physician has practically abandoned hopes for his recovery and expects his death within a few hours.

Mrs. Marcus B. Fuller Dies.

New York, Sept. 11.—News has just reached this country of the death of Mrs. Marcus B. Fuller, who was a missionary of the Presbyterian church of Bombay, India. She was an Ohio woman, but had given her life to the cause of converting the Hindu.

AYLWARD IN THE SECOND DISTRICT

DANE COUNTY MAN IS NOMINATED FOR CONGRESS.

Columbia Breaks the Deadlock On the 262nd Ballot—Break Came As a Surprise to Outsiders—Clancy Made Chairman of the Congressional Committee.

Watertown, Wis., Sept. 11.—John A. Aylward of Madison was last night nominated for congress by the democrats of the Second district on the 262nd ballot.

After the opening of the 8 o'clock session the first ballot resulted in the choice by Columbia county giving her five votes to the Dane county man, which with the thirteen of Dane was enough. The nomination of Aylward was then made unanimous.

While the end was believed to be near at hand, it brought surprise to outsiders and doubtless to the Jefferson county delegation, if not to Mr. Bodden and his supporters. However, each of the three defeated candidates made addresses before the convention and promised to give their loyal support to Mr. Aylward.

Columbia is a Mystery

Just why the Columbia delegation jumped to Aylward is something that no one on the outside seems to know anything about. Up until the end it was generally known that Dane did not look for any support from Columbia.

The victory of Mr. Aylward was only won after a hard uphill fight, as he had opposing him here some of Dane county's strongest democratic politicians.

The Congressional committee is composed of the following: J. M. Clancy, Dane, chairman; J. E. Jones, Columbia; Max Wahl, Dane; Eugene Ziegler, Dodge; A. R. Bechaud, Jefferson.

John A. Aylward

Mr. Aylward is 39 years of age and was born at Black Earth, Dane county. He worked his way through the university, being graduated in 1884. While in the university he won honors in debate. After graduating he taught in several high schools and returning to the university was graduated from the law school in 1890. He is a member of the law firm of Bashford, Aylward & Spensley.

Honduras to Pay Indemnity.

New York, Sept. 11.—A special to the Herald from Washington, says: There is excellent prospect of an early settlement by Honduras of a claim for indemnity presented by this government in behalf of the heirs of Frank Pears, an American, who was murdered in February, 1899, by a Honduran soldier. Minister Hunter has transmitted to the state department the findings of a commission, appointed by the Honduras government to investigate the murder. The commission places the responsibility upon the government and recommends a compromise. The department has referred the matter to the Pears brothers in Pittsburg, and it is thought possible they will be willing to accept \$5,000, especially as they have large interests in Honduras.

To Settle American Claims.

New York, Sept. 11.—A special to the Herald from Washington says: Acting Secretary of State Hill has received this dispatch from Mr. Pierce, the American charge d'affaires in St. Petersburg: "The protocol for the arbitration of the claims of the United States citizens for the seizure of vessels in the North Pacific by Russia was signed at noon Saturday." The signing of this protocol terminates negotiations which have lasted five or six years. The amount of the claims to be arbitrated is nearly \$400,000.

REPORT CAPTURE OF THE EMPRESS

Rumor That Russians Have Taken the Wicked Dowager a Prisoner.

ALL QUIET AT PEKIN

Allied Army of 4,000 Men Is Advancing Into Pao Ting Fu.

MORE MISSIONARIES KILLED

Nagasaki, Sept. 11.—[Special Cablegram.]—It is announced here that the Russians have captured the dowager empress. All is quiet at Peking. The boxers are returning to their homes disguised as coolies. The imperial army is invisible. General Barry of Chafee's staff, is dangerously ill of dysentery, in the hospital here.

Allied Army to Rescue

Che Foo, Sept. 11.—[Special Cablegram.]—Over 4,000 allies left for Pao Ting Fu today, where nearly all the missionaries were murdered by the boxers. Several thousand boxers are reported to be missing between Pao-Ting-Fu and Peking. Hard fighting is expected.

Taku, Sept. 11.—[Special Cablegram.]—The international punitive expedition of four thousand men departed today for Pao Ting Fu where so many missionaries were massacred.

Seventy Missionaries Butchered

Paris, Sept. 11.—[Special Cablegram.]—A Taku dispatch says a native missionary has arrived with the report that seventy foreign missionaries have been butchered in the interior. Men, women and children were killed lately, some while under escort and their heads publicly exhibited.

MANY VICTIMS OF THE BOXERS

Massacre and Prosecution of Christians in China Continues.

Shanghai, Sept. 11.—The massacre and persecution of Chinese Christians continue everywhere, and it is said the anti-foreign leaders intend to exterminate them.

John Goodnow, the United States consul general here, after every inquiry possible, learns that the number of British and American missionaries probably murdered during the uprising in China has been ninety-three, while 170 others stationed in Chihli and Shanxi provinces are unaccounted for, and there is reason for the belief that they have met the same fate. Of those whose deaths have been absolutely proven twenty-two were Americans—eight men, eight women, and six children—and thirty-four British—nine men, fifteen women, and ten children. There is strong proof that thirty-seven more were killed at Tai-yuen. All the natives from that place tell substantially the same story. Ten men, thirteen women and seven children are known to have been there.

The list of missing numbers: Americans, twenty men, twenty-one women, and twenty children; British, forty-one men, forty-nine women, and fifteen children. It is impossible to get the number of the Catholics killed, but there were many French priests and sisters, and some were in the country where the Russians are fighting. There were also several Swedish and Danish Protestants.

CHANG LI IS ARRESTED.

Military Commandant at Peking Is Charged with Ketteler's Murder.

New York, Sept. 11.—A dispatch to the Tribune from London says that Chung Li, military commandant of Peking, who is responsible for the murder of the German minister, has been arrested and is confined under German jurisdiction.

Peking, Aug. 26 (via Shanghai, Sept. 8).—Yesterday a member of the Japanese legation, who was murdered by Chinese in June li-yamen, found a body outside the southeast gate which was identified as Sugiyama Akira, the chancellor of the Japanese legation who was murdered by Chinese in June last. The body was cremated and the ashes prepared for shipment. Yesterday's conference arranged the triumphal march to the palace in the following order: Russians and Japanese, 300 men; British, Americans and French, 400 each; Germans, 250, and Austrians, Italians and the marine detachment. They will enter the south gate at 8 o'clock in the morning. All will be dismounted except the generals and their staffs.

Peking, Aug. 21 (via Shanghai, Sept. 8).—It is unofficially but reliably stated that Prince Ching will produce the emperor. If Prince Ching can discover the emperor his majesty's rule will probably be re-established, as there is no other likely candidate.

EDGERTON PROUD OF HER SHADE TREES

MR. RANDOLPH BROWN PLANTED THEM YEARS AGO.

New Tobacco Crop Is Turning Out a Larger Quantity of Leaf Than Was Formerly Expected—To Get Another Year of Janesville's Electric Light Power.

Edgerton, Sept. 11.—For a town of its size Edgerton probably has more and larger shade trees than any town in the state, and yet but very few people of today know how they came to be here. In the sultry days of summer our citizens walk beneath the overhanging branches and enjoy the cooling shade with little concern as to who their benefactor was and when his work of goodness was performed. It was upwards of thirty years ago that Mr. Randolph Brown conducted a nursery on the land now occupied by what is known as the Lord property and owned by Mr. T. B. Earle. One season Mr. Brown found himself with a very large stock of young maple trees on hand. He conceived the idea of setting them uniformly upon the streets that futurity might reap the reward for his labors. At his own expense he had the trees planted along all the principal thoroughfares of the village. They lived and thrived, and we of today are indebted to the magnanimity of Mr. Randolph Brown in making Edgerton noted for its handsome trees along its principal streets. The good man has long since gone to his reward but the summer winds of southern birth sing his requiem amid the leafy branches of the large trees that are a monument to his memory.

Geo. M. Underhill returned the latter part of the week from a two weeks' trip through the Eastern states. He immediately went to Vernon county to inspect the crop which is being harvested there.

Mr. A. C. Burdick and wife have returned to their home in this city after having passed a few months with relatives in the Eastern states.

Mrs. L. L. Wentworth gave a musicale at her home last Friday in honor of a class of thirty-five who have been receiving instruction from her. After the program a dainty luncheon was served.

L. W. Scott left for a trip through the tobacco section of Vernon county. J. W. Coon and family are passing the week with relatives in Albany.

Miss Belle Olson of Madison was the guest of Mr. and Mrs. John Thareson over Sunday. She left for a few days visit to Milwaukee friends on Monday.

Mrs. Van Berg of Whitewater is visiting for the week with her many friends in this city.

The new tobacco crop now being harvested is turning out a larger quantity of the leaf than most growers anticipated. Every day for the past week farmers' teams in large numbers have been loaded at the yards here with lumber for additional shed room and lath on which to hang the tobacco. This is good for the farmer and also good for the lumber dealer.

The fall term of the Edgerton public schools will begin on Monday, September 17th. Mrs. Rosa, wife of Principal Rosa, has been engaged as one of the assistant principals in the place of Miss Laflin of Milwaukee, resigned.

Will Kietz, clerk in L. M. Larson's hardware store, and Miss Maude Haskins went to Madison Sunday supposedly to visit Mr. Kietz's parents. But a telephone dispatch from that city to Miss Haskins' parents here on Monday morning announced that the couple were married there Sunday evening. Mr. and Mrs. Kietz were both well and favorably known as man and wife they will be welcomed back to Edgerton.

James Clatworthy, wife and son of Elmira, New York state, are visiting relatives in this city.

Pliny Norcross of Janesville, was in Edgerton on Monday conferring with the Electric Light company, in regard to furnishing that concern power for another year.

M. Pelton, who a few months ago moved from this city to Madison, was calling on old friends and neighbors here Monday. He was accompanied by Miss daughter, Miss Jorre, who will remain for a week with friends.

Wilder of Delavan, pronounced a most impressive marriage service which united Albert Collins of Lima, and Miss Belle Johnson in the bonds of wedlock. The bride is a daughter of Mrs. Mary C. Johnson and has spent the most of her life in this vicinity and has won the respect and esteem of many friends by her true and upright character. She was becomingly attired in white organza and carried white carnations. After the ceremony an elaborate luncheon was served. The decorations of the evening were carried out in white and pink asters with green. The groom is an industrious young man and after a short wedding trip they will begin housekeeping on the Hamilton farm near Clinton. Many relatives from Lima, Clinton and Shopley were present.

AS A FAIR MANAGER HE HAS NO EQUAL

DUE CREDIT GIVEN BILLY CAMPBELL BY EVANSVILLE.

He Has Had Offers to Run Other Fairs But Will Stand By His Home Affair—Some One Stole the High School Bell Clapper—Social and Personal.

Evansville, Sept. 10. The Rock county fair came to a successful close Friday. The management is certainly entitled to the greatest amount of credit.

President Campbell has demonstrated to the world that as a manager of fairs he has no equal. We understand he has already had offers to manage fairs for next season from cities who in the past have made dismal failures, but Evansville knows a good thing when she sees it and don't intend to let him go. "Hats off to Billy."

Last Thursday night while Henry Meyer and Wm. McCrossin of Chaska, Minn., were stealing a ride on the flyer, Meyer somehow lost his hold and fell off just as the train was pulling into the station. His partner, McCrossin informed the operator that Meyer had been killed. The stretcher was brought out and all hurried to the scene expecting to see the boy cut to pieces. He was found in an unconscious state, and aside from a few bruises and a small cut on the back of his head he appeared to be all right. Dr. J. M. Evans was called and made the unfortunate boy as comfortable as possible. He then bought a ticket for home vowing he had enough of hobnobbing.

The High school opened Monday and the Seminary Tuesday.

When janitor of the High school went to ring the bell Monday morning, try as hard as he could he could not. Upon investigation it was found that the "clapper" had been removed, so we missed the familiar sound the opening morning.

Miss Mabel Hall and her celebrated trained horse "King" will give daily exhibitions at the state fair in Milwaukee this week. Miss Hall was one of the many attractions at our fair last week. We understand she is booked for the Columbus fair later.

The Holloway Bros. left Monday for St. Paul, Minn., where they have been engaged to give their contortion and trapeze acts at the state fair held in that city. The management made no mistake in securing these boys as they are certainly as good as can be found.

Next Thursday, Sept. 13th, the Stoughton and Evansville base ball teams will play in Evansville at 2:30. This promises to be a red hot game. Robert West and Master Earl Seville have the scarlet fever.

Prof. Griffith, the hypnotist held the boards at the opera house fair week. He drew large crowds.

LA PRAIRIE

La Prairie, Sept. 11.—Many of our citizens will visit the Milwaukee state fair this week.

Ethel Tarrant has been visiting in Clinton.

Jennie Eddington opened school in the Read district last Monday.

The L. M. B. S. requests all members to be present at the next meeting, September 20, as final arrangements for a quilt will be made.

Carrie McCartney has begun teaching in the Finch district.

L. A. Sherman and family have moved to Johnston. Mr. and Mrs. Sherman have a large circle of friends in this locality whose best wishes will go with them to their new home.

Effie Rice has begun her career as teacher.

Will Sherman has rented, and will move onto the homestead. Ed. House and family will occupy the Warner place.

Bertha Proctor will train the young ideas in the Turtleville school.

Rev. I. G. Huey was greeted with a full house at the hall last Sunday afternoon.

Rev. Woodside and a male quartet will have charge of the exercises at the hall next Sunday afternoon.

FOOTVILLE.

Footville, Sept. 11.—A. W. Buck has been treating his barber shop to a new coat of paint and a new set of mirrors.

Joseph Beck of Iowa, has been visiting his sister, Mrs. Ellen Strang.

George Ernest of Ohio, has been visiting his cousin, Grandma Strang.

The Junior League social and the "Bachelor and Maid" social were both very successful and enjoyable.

Miss King of Janesville, visited friends here last week.

A goodly number of our citizens attended the Evansville fair last week and pronounced it a fine success.

Mr. Sawtelle of Washington, and Mr. White of Oregon, young men on their way to enter school at Boston are visiting for a few days at Mrs. Lucy Strang's.

BARKERS' CORNERS.

Barkers Corners Sept. 21.—The Ladies Aid will meet with Mrs. Wm. Hodge Thursday afternoon of this week.

There will be a lecture at the M. E. church Wednesday evening of this week. The topic will be Cuba and the Philippine Islands, illustrated by twelve moving pictures.

Robert Korn started his cider mill last week.

Jasper and Hattie Dutton returned from Platteville today.

Miss Katherine Crowley of Janesville commenced school in the Flagler district this week.

Miss Mabel Glenn will teach the Barker school.

NORTH JOHNSTOWN.

North Johnstown, Sept. 11.—Grandma Cary has not been well for a few days. Madge Wheeler from Shubert, Neb.,

visited at the home of his cousin, Mrs. H. R. Osborn from Friday until Sunday.

Alonzo Hulse and his sister, Mrs. Ellen Marshall of Asherville, Kan., attended church services here Sunday and called on friends and relatives.

John Spencer of Lawrence, Kan., and his brother, Rudolph from San Francisco, Cal., visited their aunt, Mrs. L. Longfield and their cousins, Rev. A. Longfield and family at the parsonage from Wednesday until Friday.

Miss Louisa Bricker returned to her home at Chicago, Monday.

Ernest Pitt is attending school in Whitewater.

The corn crop which is now being harvested is the best that has been raised for many years.

School begins at the stone school house Monday with Miss Maud Thiry of Milton Junction as teacher.

Miss Ella Brown of Milton Junction had a fine monument erected in the cemetery here last week.

Mrs. Frank Rice is still suffering from hay fever.

Fred Douglass, wife and daughter, Mrs. Jane White from Dakota, visited at Frank Blunt's a part of last week.

Remember the W. C. T. U. meeting Saturday with Mrs. Reese at Lima.

Mrs. Wheeler Lucas and children returned to their home in Iowa, Saturday.

**PUBLIC SCHOOLS
OPEN NEXT MONDAY**

Nature Has Preceded Man.

Almost all of men's inventions have been foreshadowed by nature. The hypodermic syringe with which the physician injects morphine into a patient's arm has its counterpart in the sting of the bee. The tunnel-borer is an adaptation of the work of the tere-do, or shipworm. The principle of the balloon is found in certain fishes. The paper-making industry is paralleled in the building of the wasp's nest. In the mechanism of man's body there are joints and levers similar to those used in engines. The automatic oiling of surfaces which rub together in an engine is on the same plan as the lubrication of the joints in our body. Man's nervous system resembles the telegraph in its mode of working. The ball bearings of a bicycle or automobile are not so very dissimilar to the ball joints of the human hips and shoulders. The principle of the lever was foreshadowed in the long bones of the human body.

YES OR NO?

Janesville People are Respectfully Asked to Answer

These Questions.

Is there anything in the evidence of one's senses?

Is there anything in the testimony of one's friends?

Can reliance be placed upon statements from people we know?

Are the opinions of local citizens of any greater moment than those of strangers?

Would you sooner believe people living in some far away place than citizens of your own city?

We think not. Let home proof can easily be investigated.

Mr. John Stetson of Hotel Myers, day clerk, says: "A physician pronounced my trouble kidney complaint. If the severe pain across the small of my back is any indication of the said complaint, I guess I had it. For two years I suffered with attacks, sometimes violent, sometimes a dull grinding ache, which robbed me of considerable energy. I used in addition to doctor's prescriptions, several preparations said to be sure cures for kidney complaint, but up until I procured Doan's Kidney Pills at the People's Drug Co.'s drug store, I received little if any permanent relief. I took a thorough course of treatment prescribed by Doan's Kidney Pills and it cured me. Up to date I have not noticed any recurrence of my old trouble."

Sold by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

WE KEEP THE QUALITY UP.

For Fine furs

The Big Store Is the Place..

Certainly....

We know it's early, but not to be caught napping we placed orders early, and are now showing the correct styles and plenty of

Collars and Collarettes.

FUR--ments....

Not our entire fall and winter stock, but Scarfs and Collarettes for autumn wear. Our stock of long capes and fur jackets will be along shortly. Prices: 2, 3, 3½, 4, 4½, 5, 5½, 6, 7, 8, 9, 10 to 22 dollars.

By getting our order in early we have found that skins are selected with greater care and that garments are made better before the manufacturers get so busy. We buy our furs from a large Detroit house—have for some years—buy enough so that if any garment proves unsatisfactory, we are protected, likewise our customers, as any defect is made good by the maker. Furs are a lottery—Don't expect to buy good furs at prices too low.

Golf Capes..

50 pretty Capes—the very latest. They are selling freely—gay ones and sober ones—\$6, \$18, and all the prices between. Large line at \$10.

A Fact..

No better place than this store to fill your fall and winter dry goods needs. Many people have to buy early, and we are ready for all such.

"Star Export" Beer.

DON'T COMPLAIN ABOUT THE HOT WEATHER.....

There's a Sure Remedy

That remedy lies in our "Star Export" brand of bottle beer.

PANNED MUSHROOMS.—Medium sized, fresh mushrooms which have just passed the stage of showing the gills are considered the nicest for pan-frying. Peel by drawing the skin from the edge toward the center of the mushroom with the aid of a sharp knife. Place a piece of butter the size of a walnut into the frying pan, and when hot carefully arrange the mushrooms on their crowns, and into the open top of each place a sliver of butter and a sprig of cayenne. Cook in this manner eight minutes. Do not turn them, but see that they do not scorch. Serve on buttered squares of toast.

Cleanest in America.

The Lackawanna Railroad is the cleanest railroad in America. Even though it cared little for the comfort of its passengers, which it does, it probably would burn hard coal, for the reason that it owns the most extensive anthracite coal mines in Pennsylvania, and it is cheaper for it to burn hard coal, which makes no smoke, than soft. At any rate, there is no smoke from its locomotives. It is built for the most part through the mountains where rock is the material easiest of access, and its road-bed for that reason is rock-ballasted. There is therefore, no dust. These two things are of unusual interest to the traveler by the line, for the reason that on no other road in the United States is there stronger incentive to keep one's eyes upon the passing scene. It is said of this line truthfully that every mile is picturesque. It traverses the agricultural region of Western New York, the valley region of Central New York, the mountain region of Pennsylvania and New Jersey, and every mile offers a view that is beautiful, interesting and entrancing. In point of comfort its passengers are particularly fortunate, for, in addition to there being no smoke or dust, the cars are roomy and scrupulously clean. Sleeping cars, parlor cars and dining cars offer all the conveniences and comforts of modern travel.

Letitia is a Wreck.

Brookshire, Tex., Sept. 11.—Letitia is a wreck. The house, including the depot, have been blown to the ground and the timbers from some of them carried for miles. Mrs. Sophia Schultz, mother of William Schultz, formerly of Houston, was killed. She was 73 years of age. Her husband was ill at the time the storm came up, but was uninjured. His illness may prove fatal, however, on account of the shock. Mrs. Amalia Quade, sister of William Schultz, was fatally injured.

Rob a Bank of \$3,000.

Evanston, Ill., Sept. 11.—John C. Terhune, cashier and principal stockholder in the Citizens' bank here, went out in front of his bank in answer to a summons from a mysterious man in a buggy. When he returned to his desk five minutes later he found the cash drawer had been robbed of \$3,000. The theft was committed during the noon hour while Mr. Terhune was alone in the bank, and there were at least two men in the plot.

Exciting Market in Cotton.

New York, Sept. 11.—The intensity of excitement and activity of speculation on the Cotton exchange for the day were without a parallel. Fluctuations far exceeded anything recorded, the extreme being 100 points, with relapses frequent and violent. The market opened irregular and excited, with prices 43 and 61 points higher on an irresistible rush of buying, in which every branch of the trade took part. Sellers were few and far between.

Quick Aid for Galveston.

Chicago, Sept. 11.—The Galveston horror has deeply touched the people of Chicago, who have not forgotten 1871, though Galveston was swept by the flood and Chicago by the flames. From every quarter of the city comes the offer of help and succor in proportion to every one's ability. Mayor Harrison took hold, and several thousand dollars were pledged in a few hours.

McKinley Sends Food.

Washington, Sept. 11.—Fifty thousand rations and 10,000 tents have been sent by the government for the relief of the destitute in the storm-ridden districts of Texas. President McKinley has wired Gov. Sayers that the government will give further aid.

Insane Lover Shoots Thrice.

Livingston, Mont., Sept. 11.—Two men dead and a woman seriously injured are the results of a tragedy at Rock Creek church, about twenty miles north of this city. The men, Willis Howard and Frank Forrest, had been rivals for the hand of Flora Zinn. Willis Howard, the more favored of the two suitors, had started with the young woman to church, when they were met by Forrest, who shot and instantly killed Howard. He next turned on the fleeing girl, and fired two shots at her, one passing through her body. The murderer then ran several yards into the brush and shot himself, dying almost instantly. Forrest had once before been arrested for threatening to kill Howard, and was alleged to be insane over the girl.

THE PROBLEM.

DOROTHY in the nursery can calculate the price of Ivory Soap per cake, but it would take a mathematical genius to calculate its true value. For he must take account of time, labor, and materials. He must deduct from the apparent cost the saving in the longer life of the cake, in the longer life of the washed fabric, in the labor required, in the time consumed, in the strength expended, in the results obtained. When all is finished, Ivory is the cheapest soap in the world. It floats.

BRYAN TALKS TO OLD FRIENDS

Is Feted by Former Nebraskans at Chicago.

Chicago, Sept. 11.—William Jennings Bryan attended a reception tendered him by the Nebraska Bryan club at the Sherman house, where he met many of his old-time friends.

The committee which had Mr. Bryan in its hands was composed of ex-Judge M. V. Gannon, J. W. Cranmer, F. W. Solon, George J. Sternsdorff, H. E. Murphy and J. W. Davis. According to the program Mayor Harrison was down for the first speech. He did not appear and after waiting half an hour the meeting proceeded without him.

Judge Gannon, who is president of the Nebraska Bryan club, spoke a few words, and then introduced Mr. Bryan.

The Nebraska was given a hearty reception. For three minutes the audience refused to be silenced and gave vent to its feelings. When order was restored Mr. Bryan told his hearers how glad he was to meet so many dear friends who had stood by him in adversity, and he admitted that it was only by efforts of many present that he succeeded in attaining the height at which he now stands. He made many allusions to his first campaign work when he went to Nebraska, and mentioned the names of many persons present who wielded much influence in his behalf.

Wreckage Picked at Sea.

Norfolk, Va., Sept. 11.—Incoming steamships from New Orleans and southern ports report having encountered the big West India hurricane. Several vessels had their decks washed away. The Valencia, from New Orleans, saw a bark go ashore near Alligator Key, and passed much wreckage. On the Mallory line steamship Comal, from New York to Galveston, are several passengers from here. A message from Frederick Lewis, whose wife is aboard the Comal, dated Houston, said he could proceed no further north than that city.

Dear Sirs—Some days since a package of your GRAIN-O preparation was left at my office. I took it home and gave it a trial, and I have to say I was very much pleased with it, as a substitute for coffee. We have always used the best Java and Mocha in our family, but I am free to say I like the GRAIN-O as well as the best coffee I ever drank.

South American Questions.

Much satisfaction was felt in Chile at the receipt of a telegram from Senor Moria Vicuna, Chilean minister at Washington, in which it was announced that in compliance with instructions received from his government, he had held a conference with Secretary Hay as to the attitude the United States government intended to assume in the negotiations which Chile had recently pending with Peru and Bolivia. The cablegram added that the United States minister of foreign affairs had replied to the question of the Chilean representative by stating that the United States government would not interfere in any way in the problems pending between Chile and the republics of Peru and Bolivia. This declaration is looked upon as very important.—Robert H. Reid in Chicago Record.

YESTERDAY'S FIRE.

After the house is stolen put a padlock on the barn door.

The Choate-Hollister furniture factory is in ashes.

Now the fire protection asked of the council a year or more ago will doubtless be provided as work on the new well is under way.

The big factory—one of the most complete that could be built—was a flourishing industry and its destruction is a distinct public loss.

True, the building was not well located. It was too far from the business center to expect protection from the city water mains and special appliances were difficult to secure. The common council ordered a well built some time ago but it was a failure. Then, instead of trying it again, the matter was dropped only to be taken up again a few days ago. That well, such as the council had built at Armour street, are practical, is well known and that one could have been built, months ago, near the big factory, goes without saying. The fact that the first one was a failure should not have deterred the council from making the second attempt at once. Now, the fine plant is ruined, while one stream of water would have, competent observers say, extinguished the fire half an hour after it started. A chemical engine, it is said, would also have been sufficient to put out the fire before it enveloped the whole plant. Chief Spencer long ago recommended the purchase of a chemical engine, yet no heed was paid to his request.

The fire has again demonstrated the fallacy of a pinch-penny policy in equipping the fire department and providing water supply. Either a chemical engine or a single stream of water would have saved the building with a nominal loss.

The council should adopt Chief Spencer's suggestion and buy a chemical engine at once. Such a move would come too late to save the Choate-Hollister plant, but "better late than never."

The same conditions may have to be met again ere the ink on these types are dry.

Naturally, Tammany hangs together, as has been said before, because if it doesn't it "will hang singly." But there will be a surprise party when the gang is marched to the gallows. There are some people on the membership roll who have never received credit for being in the organization.

In view of the rumor to the effect that a grand jury may be called this fall it might also interest some people to know that a grand jury, like the mills of the gods, grind slowly, yet they grind exceedingly fine.

Constant Reader.—When you want a policeman, telephone any member of the Fire and Police commission. The

commission is said to be perfectly satisfied with the present plan, and all its workings and can doubtless tell you where to find an officer at any time day or night.

A FACT IN WHITEHEAD'S FAVOR.

Watertown Times.—Senator John M. Whitehead of Janesville who has been nominated in the Twenty-second senatorial district, voted against the passage of the best sugar bounty bill.

Milwaukee Sentinel.—Of course he did. That was one of the official acts which entitle him to his reputation as an honest legislator. The fact that some of his constituents may have been convinced that the legislative jobbery would benefit their interests makes his action the more commendable.

The scheme to mulct the taxpayers of Wisconsin under the pretense that the farmers would derive the lion's share of the profits was an alluring one to those communities which were promised the establishment of important industries as a consequence. The lobby employed to work out the legislative end of it was shrewd and experienced and behind the lobby stood the combine of promoters and bounty grabbers who raided other states with more or less success. It is not surprising that some enterprising jetties and some honest members of the legislature were deceived. Senator Whitehead deserves an increase in his majority because of his assistance in the defeat of that job.

SEVEN EVENTS FOR Y. M. C. A. SEASON

ENTERTAINMENT COURSE IS UNDER PREPARATION.

An Excellent Program Made Up of High Class Talent Will Be Engaged For the Course This Fall and Winter.—The Fadette's Will Open On November 21.

The Y. M. C. A. entertainment committee, consisting of W. E. Clinton, chairman, and W. G. Palmer, treasurer, are busily engaged in preparing the program for the Y. M. C. A. entertainment course during the ensuing season.

The course will open on Nov. 21 and if the plans now outlined can be carried out the following seven attractions will be presented: The Fadettes; Elias Day, characterist; The Wesleyan Male Quartette; Benjamin Chapin; Ariel Ladies' Sextette; The Quaker Male Quartette Co., and the Parker Concert Co.

This selection is certainly one of the best entertainment programs that could possibly be selected. The cost for the seven events will between \$700 and \$800. It is the purpose of the committee to raise \$600 by the sale of season tickets at \$1 per ticket. Two Y. M. C. A. workers are now out soliciting the sale of such tickets and with the success they have met there is no doubt the course will be carried out. The association was behind about \$40 on the course last year. They do not want to make any money out of these entertainments, neither do they want to lose any. Their idea is to present first class, high grade attractions for the benefit of the people and get out about even.

Fadette's Woman's Orchestra

The opening number on Nov. 21, if this course is adopted, of which there seems to be no doubt, will be the Fadette's woman's orchestra of Boston with twenty-one artists. Of these the Cincinnati Commercial-Tribune says:

"There is something in their music that is not only most grateful to the ear, but borrows an additional interest from the association of ideas. The program was light and breezy and it was astonishing how much strength they had at their command. The strings especially are of even musical quality, and their attack prompt, the wood fine excellent; the brass vigorous and even. The conductor, Mrs. Nichols yields her baton with grace and dignity and has her forces under fine control. On the whole, their work is remarkably clever. No point in coloring or grouping is passed over to make these concerts a feast for the eye as well as for the ear."

Elias Day, Characterist

Second number.—Mr. Day's entertainment is novel, new and original, consisting of an interesting talk on the Degeneration of the Art of Story Telling, illustrated throughout with stories, humorous pathetic and tragic; stories narrative, stories elocutionary and stories dramatic. In the latter class Mr. Day impersonates the characters in his "make up" so cleverly that his audiences forget entirely the real Mr. Day in the character impersonated. No costumes are used; but the seeming incongruity of dress suit and old farmer face is never noticed, so interested does the audience become in the character itself.

Wesleyan Male Quartette.

Third number.—The gentlemen comprising the Wesleyan Male Quartette are representatives of the conservatory of music of Nebraska Wesleyan University. The quartette has now been in the concert field four years. During this time they have given nearly five hundred concerts in ten states; have been enthusiastically received on Chautauqua and assembly programs and have filled many important engagements in musical and lecture courses. The great success the quartette has achieved is shown by the fact that they have been engaged in almost every city where they have sung, and have given their fourth and fifth concerts in many places. Their repertoire includes more than one hundred quartettes and songs, representing all styles of music.

Benjamin Chapin

Fourth number.—Benjamin Chapin as Abraham Lincoln has won renown all over the country for his effective mimicking of the great Illinois rail splitter and

emancipator of the negroes. This is sure to be a pleasing attraction.

Ariel Ladies Sextette

Fifth number.—The Ariel ladies sextette is composed of six sisters who have sung together from childhood. Their voices blend in a manner that baffles description, and can only be produced by life long training. During the past eight seasons they have appeared in nearly every state in the union, and in fifteen hundred different cities and towns, thus establishing a national reputation as entertainers such as we are seldom if ever known in the annals of the Lyceums.

Quaker Male Quartette

Sixth number.—It is confidently affirmed that the Quaker Male Quartette Company, as now organized for the season of 1900 and 1901, is the peer of any similar organization that ever sang before an audience. The quartette will not only appear in full dress, but also in elegant Quaker costumes during the rendition of their program, and introduce many novelties that no other company will be capable of giving. In comedy they are beyond comparison. While every member of the quartette is a soloist, Mr. Baker, the basso, who sings three octaves, from tenor G to G below low C, is not only one of the best bass singers in the country, but is a whole host in himself, as an entertainer and comedian. He is not only the author of many of the most popular songs of the day, but one of the very best humorous vocalists on the concert stage.

The Parker Concert Company

Mr. Parker is well known in the east as author and director. There is only need of an introductory word as the company will this year be booked extensively in the west. Mr. Parker has had years of experience with musicians and the public and he has used this acquaintance to good effect in selecting a group of artists who should bear his name. Every member is a solo artist and possesses the double talent of voice and instrument so that the five people give a program of as great variety as a ten member company usually affords.

TURNKEY BROWN TAUGHT A LESSON

Forger Johnson Escapes
Rock County Jail By
a Bold Trick.

LOCKS HIS JAILOR UP

He Is Captured Shortly After-
wards In The Park Hotel
Hay Mow.

IS SENT UP FOR 30 MONTHS

Turnkey Samuel Brown now sings a new version of the old song, "Mr. Johnson Turn Me Loose," only in this case Mr. Johnson should have been the one in the cage. A short time ago Marshal George Appleby of Beloit arrested John Feen and A. L. Johnson in Chicago for passing forged checks on several merchants in Beloit.

The forgers were brought back to Beloit and at the examination were held for trial. They were brought here and committed to the care of Sheriff Appleby for safe keeping and were locked up in the Rock county jail.

A Dash for Liberty

This morning as is his custom Turnkey Brown went into the cell room at 5 minutes to seven to give the prisoners their breakfast. He went through the outer door and left it unlocked. He then unlocked the inner door, left the keys in the lock and stepped into the inner corridor with the prisoners' breakfast.

As he stepped through the door Johnson, who was standing a short distance inside the door made a quick move and ducked behind Brown and before he realized what had happened Johnson had passed through the door, locked it behind him and took the key leaving Brown a prisoner in the corridor.

Rushed Through the Kitchen

Brown immediately commenced to call for help, and tried to alarm the people in the jail. Johnson lost no time in getting out of doors; he rushed into the kitchen of the jail, where one of the hired girls, Lena Wurdon, was at work, and rushed around, trying to find the nearest door to reach the street, and opened three doors before getting the right one. When once out doors he started on a run down Park street, and turned the corner on South Second street, near the Lewis Knitting Works and on to Main street, where all trace of him was lost.

Lena Wurdon, the girl in the kitchen, was badly frightened by the man, and screamed and ran up stairs to Sheriff Appleby's room. She was so excited that for a minute he could not understand what she wanted.

The sheriff was still in bed but it took him but a short space of time to jump up and get some clothes on him and start after the fugitive. He could find no trace of him after he reached Main street.

Brown Hollering Like Mad

All this time Brown was locked in the corridor hollering like a Comanche Indian and kicking and pounding at the bars trying to attract some one to his help and let him out. Johnson had carried off the key to the door with him and a duplicate key that one of the girls had charge of had to be hunted up. It was found finally and Brown was released. He immediately rushed to the barn and harnessed up a horse and started toward the country in the direction taken by the escaped prisoner. Up to noon no trace of him had been discovered.

Brown Was Careless

Sheriff Appleby is also on the lookout for the man and hopes to get him again before long. Brown was very careless in going into the corridor when he did.

The jail is so constructed that two doors have to be opened to get into the corridor of the cell room and had Brown locked the outside door before he unlocked the inside one it would have made no difference if the man had passed through the inside door he could not have passed the outside one.

The escape was cleverly planned and was not done on the impulse of the moment. The prisoners had watched the turnkey for several days as he brought the meals and noticed whether or not he was careful to lock the doors behind him and were ready to go at the first opportunity.

Escape Carefully Planned

This morning was evidently picked to make the trial. When turnkey Brown went in with the breakfast, he noticed that the table had been moved from its usual place near the door to near the other end of the corridor, making it necessary for him to get some distance from the door to reach the table.

He did not think much of this, and walked into the corridor. This was what Johnson was looking for, and before Brown realized it, he had locked the door and skipped.

Sheriff Appleby said: "Brown fed the prisoners a little earlier than usual this morning. If he had fed them at his usual time, I would have been sitting in the office reading the morning paper, and Johnson would have run into my arms."

Everything worked to the advantage of the prisoner and he made a clean break of it.

Red Hair and Mustache

Johnson is a young man of medium height, slim built, with red hair and a

red mustache. He was dressed in a dark suit and had a black hat.

John Feen, Johnson's partner in crime was brought into the municipal court this morning and his case was adjourned for two weeks.

Johnson's case was also adjourned on account of the absence of the defendant. Their trial was set for today.

SHERIFF CAPTURES THE FORGER

Taken Before Judge Fifield and Given Thirty Months at Waupun

About 10:30 o'clock this morning Dr. E. D. Roberts telephoned to the jail to Sheriff Appleby, and told him that the boy who tends the barn at the Park Hotel, said there was a man answering the description of Johnson, at the barn about 7:15 o'clock this morning and wanted to get a rig. He seemed to be in a hurry, and when he found he could not get a rig, he walked to the rear of the barn and went up the stairs, and he did not remember seeing him come down.

Sheriff Appleby, without waiting to put on his coat, started for the Park hotel barn. He went up stairs in the barn and made a careful search, but could not find his man.

Noticed His Foot Prints

He noticed a window in the back of the barn opening onto a shed and outside on the roof he discovered fresh heel tracks. The sheriff followed out on the roof and looking down to the ground saw where the man had jumped off the roof, the foot prints showing plainly in the soft ground.

The sheriff jumped down and followed the tracks to a cellar window in some flats that are near the barn. Here the man had tried to open the window and not being able to open it had gone to the old stone barn in the rear of the Highland House. The sheriff made a thorough search of all the mangers and hiding places down stairs without success and then went up into the loft.

In one end of the loft was a pile of hay, probably half a ton. When the Sheriff went into the loft a cat sat on the top of the pile of hay and he thought well, if there is anyone under that hay that cat would not be sitting on it, but he thought he would search it anyway.

Found Under the Hay

He walked up on the hay and commenced jumping up and down on it to see if he could feel anything under it. When he reached the corner of the pile next to the walls he struck something and thought he would investigate. He reached down into the hay which was like a bake oven, and his hand came in contact with the man.

The sheriff jerked him out and he was a sorry looking sight covered with dust and chaff and the sweat pouring off of him.

The butt of the sheriff's pistol was sticking out of his hip pocket. Johnson caught sight of it and made a grab for it. Appleby was watching for him and caught him by the wrists and threw him to the floor and soon made him squeal.

He was taken to the municipal court where he pleaded guilty to the charge of passing forged checks and Judge Fifield sentenced him to a term of two years and three months in the state's prison at Waupun.

THE FACTORY WILL NOT BE REBUILT

CHOATE HOLLISTER FURNITURE CO. LOSS IS \$78,000.

The Insurance Was Only \$17,000—

Meeting of the Stockholders Was Held Last Night—They Feel Very Much Discouraged Over the Large Loss—Men Out of Work.

The fire at the Choate-Hollister Furniture company's plant was not entirely extinguished until four o'clock this morning.

The fire steamer stationed at the fire well, twenty four hundred feet away, was kept at work until 4:04 o'clock this morning, and had plenty of water to force a good stream through the long line of hose. The longer the engine worked the better the water came from the well, and at no time was there any signs of its giving out.

Although the engine was slow about getting to the fire yesterday, it is fortunate that the alarm did not come ten minutes later, as it would have found it with its grate removed and a man at work fixing the leaky flues. Mr. Wallis was on his way to the engine house with his tools when the alarm was sounded, and the engine had been made ready for him to work on.

Contents of Safe O K

During the fire the flues leaked so badly that it was with great difficulty that the fire was kept going. Under the circumstances the engine did remarkably well. The large safe of the company containing the books and four hundred dollars in money which fell into the basement when the office floor burned away was opened this morning.

The doors were badly sprung and had to be pried open with a bar. The books insurance policies and money were found to be all right and only slightly scorched on the edges.

A meeting of the stockholders and directors of the burned factory was held last night. The loss was figured out to be about \$78,000 with an insurance of \$17,000. The company had lately purchased a lot of new machinery which increased the loss considerably.

Will Not Be Rebuilt

One of the directors stated that in all probability the works would not be rebuilt.

The loss is a hard blow to the manufacturing interests of the city. Local capital and local men being largely interested and the works were just reaching a point where they were doing a fine business. It is a hard blow to about fifty hands that were thrown out of employment just before the commencement of cold weather.

Chief Spencer was at the works yesterday superintending the fire well which was being built near the buildings and had been in the engine room talking with Engineer Bennett. He walked around to the east end of the building near the office and had been there but a short time when he heard the men in the works hollering.

Firemen Did All They Could

George Brownell rushed out of the office and told him to turn in a fire alarm. He immediately jumped into his buggy and drove at full speed to box 333, at the corner of McKay boulevard and Eastern avenue and turned in an alarm at 8:10 o'clock. It was exactly seven minutes from the time the alarm was turned in to the time the fire patrol arrived at the building and eight minutes until the east side hose wagon arrived.

The engine was at the fire well in thirty minutes and had a stream of water through the twenty-four hundred feet of hose in forty minutes. With the facilities at hand the fire department did all it possibly could and they were fortunate that the immense lumber piles did not burn with the factory.

JUDGE H. C. SMITH MAKES A SUCCESS

Among the candidates mentioned for governor at the recent republican state convention held at Helena, Montana, appears the name of Judge Henry C. Smith, formerly of this city. Judge Smith was formerly a partner in the law business with Hon. Ogden H. Fethers and Malcolm G. Jeffris. After leaving this city he went to Helena and entered upon the practice of his profession. He was successful from the start and was elected circuit judge on the republican ticket, which position he still holds.

COMPANY I GOES TO STATE FAIR

Tomorrow will be military day at the State fair in Milwaukee. The entire first regiment will be in camp tomorrow night and will return home Thursday. Captain Charles F. Achterberg, expects to take a full company to Milwaukee with him. They will leave tomorrow morning on the seven o'clock train on the C. M. & St. P. railway. Companies from Beloit, Monroe and Darlington will be on the train and the Whitewater company will be picked up on the way.

Richest Army Officer

The Ninth regiment, which is fighting in China, has on its roster one who is probably the richest officer in the army—Second Lieutenant Robert S. Clarke, formerly of New York. Mr. Clarke is a grandson and one of the principal heirs of the late Alfred Corning Clarke, and his wealth is estimated at several millions. He is still in his early twenties, and is a graduate of Yale University. He received his commission in the army about a year ago.

BUSINESS CHANGE

W. L. Sherman Buys Hockett's Bakery and Restaurant

The bakery and restaurant at 107 West Milwaukee street formerly owned by Geo. Hockett & Son has been purchased by W. L. Sherman the deal having been made last week.

Mr. Sherman will continue the business along the high standard it has already attained, making a specialty of fine bakery goods, confections and canned goods. Ice cream soda and Purdy's root beer are dispensed at a first class fountain in the store.

Mr. Sherman will continue to manufacture home made ice cream and it will be delivered any place on notification; he has planned to serve oysters and lunches in the near future as soon as he can make the necessary arrangements. The store is connected with the Rock County Telephone line No. 15. Mr. Sherman's many friends wish him success in his new undertaking.

Death of John G. Butler

John G. Butler, for forty-two years a resident of the town of Plymouth, died at his home in Hanover last evening at 7 o'clock, aged seventy-two years. He had been in poor health for some time, so his death was not entirely unexpected. He was born in Germany and leaves surviving him five sons: Charles, John, George, William and Frank, all of whom reside in the town of Plymouth except John, who lives in Iowa.

The funeral will be held from his home in Hanover on Wednesday. The Rev. Sumner of Hanover, will officiate. The interment will be in the Plymouth cemetery.

EDWARD COUGHLIN GIVEN TWO YEARS

STOLE A HORSE FROM A BELOIT FARMER IN 1889.

He Escaped and Traveled All Over the West—His Conscience Would Not Allow Him Any Peace and Finally He Voluntarily Surrendered to the Law.

Edward Coughlin of Beloit, who surrendered himself to the officers a short time ago for stealing a horse from Mr. Maxworthy of Beloit in 1889, was brought before Judge Fifield of the municipal court this morning and pleaded guilty to the information filed by District Attorney Jackson.

Coughlin was represented in court by William Smith and Cornelius Buckley of Beloit. Before passing sentence on the prisoner Judge Fifield asked him if he had anything to say in his behalf. Coughlin said he had nothing to say only that he hoped the sentence would be as light as possible.

Cornelius Buckley in behalf of the prisoner made an appeal to the court for leniency saying that at the time the crime was committed Coughlin was a young man addicted to the use of liquor and at the time the horse was taken was badly intoxicated. That he had known him from childhood and had never known of his doing a wrong act before.

That the crime was committed many years ago and the fact that the prisoner gave himself up to punishment showed that he had suffered great mental punishment and he asked the court to be as lenient as possible.

District Attorney Jackson thought that the claims of the state would be sufficiently satisfied by the minimum punishment.

His honor in passing sentence on Coughlin said "That in view of the facts of the case and on the recommendation of the district attorney, he would impose the minimum punishment" and sentenced Coughlin to two years in the state's prison at Waupun, the first day of each year to be solitary confinement.

Coughlin stole the horse from Maxworthy's barn in 1889 and drove it to Belvidere, where he disposed of it and left the country, going to Iowa, where he has been employed in taking care of horses. He was once located during John Hogan's term as sheriff and a requisition was issued for him. Some interested persons found out that a requisition had been issued and before the sheriff could get out to where he was located, had warned Coughlin and he skipped out. No more was heard of him until he gave himself up to the officers in this city some months ago.

The case of W. A. Mayhew of Clinton against Jones & Winter telephone exchange constructors was settled. Jones & Winter paying the costs and giving Mayhew something for the damage claimed by him. Mayhew said his house was damaged by linemen in the employ of Jones & Winter walking on his roof with climbing spurs causing it to leak. The examination of Fred Feltz took place yesterday and Feltz was held for trial.

At the concert given by the Y. M. C. A. band at the county asylum last evening, Mrs. S. B. Lewis sang several selections in a pleasing manner, Mrs. F. F. Lewis playing the accompaniment.

MISSOURI FRUIT LEADS.

Apples Take First Place at the Paris Exposition.

SIX PRIZES HAVE BEEN WON SO FAR

Result of Exhibits Means Much to the State—Feasibility of Shipping Fruit to Foreign Markets Has Been Clearly Demonstrated and a Big Trade Assured.

Missouri fruit growers are assured of a market on the continent this fall as a direct result of their exhibits at the Paris exposition.

Secretary L. A. Goodman of the Missouri Horticultural society recently received official notice that the Missouri apple exhibit had carried off the first prize for the sixth successive time since the Paris exposition. There have been six competitions so far, and Missouri captured highest honors at each of them. The seventh competition occurred the other day, and from the best information at hand it seems more than probable that the first prize was awarded to Missouri fruit.

When seen at his home the other night, Mr. Goodman evidenced decided pleasure at the good news he had received.

"I received notice by letter from Mr. G. B. Brackett, expert in pomology, who is in charge of the fruit exhibition of the United States at the Paris exposition," he said to a Kansas City Times reporter. "Mr. Brackett writes that the competition was held on Aug. 9 and that the Missouri display consisted of Ingram and Ben Davis apples, the jury of awards rendered their decision largely upon the former variety. The condition of the fruit, he says, was almost perfect. This is little less than wonderful in view of the fact that all the fruit exhibited so far was grown last year. The fruit consisted originally of 77 barrels, or 230 bushels, of 11 varieties of apples. These were collected last fall and kept in cold storage here in Kansas City until March of the present year, when they were repacked in paraffin and tissue paper and shipped in a refrigerator car direct to New York, where the day following they were put in cold storage aboard the steamship St. Paul and transported to Havre. There they were put in cold storage, and the supply has been drawn on 10 or 12 barrels at a time, for the several prize competitions. The seventh contest will also be upon last year's apples, but for the two remaining competitions we shall ship new fruit to Paris by express.

"These competitions will occur on Sept. 26, for which we shall ship 12 barrels of new apples from Kansas City on Sept. 12, and on Oct. 10, for which we shall also express about a dozen barrels abroad. In both instances we intend to ship about 24 varieties, half a barrel of each. We want to make as fine a showing as possible, for, having won honors successively up to this point, we cannot afford to be turned down at the last.

"Only United States fruit has been exhibited so far, but in October this country will have to compete with all other countries in the fruit competition, as the ninth and final display has been selected for the all world contest. There is little doubt but that the United States will capture all the special awards, however, in view of the record made by the Missouri fruit particularly.

"The awards have been classed as first, second, third and fourth, and while many states have had to content themselves with the fourth classification the judges have rated Missouri fruit first every time.

"The 'Missouri table,' as it is known, has been supplied once every three weeks with fresh fruit from the Havre cold storage, and the condition of the apples has set aside all doubts as to the feasibility of supplying the foreign markets. By keeping the fruit in cold storage previous to shipment every barrel of apples shipped abroad can be guaranteed, and we are going to have a big trade in Germany, Austria, Italy and other European countries this fall.

"The demand that has been created abroad is already manifested in the number of inquiries received from buyers in Vienna, Berlin, Naples and other continental cities. The display at Paris was not a horticultural exhibit, but purely a commercial one. We sent only such varieties as would stand shipment and which can be supplied to a large foreign trade. It was a business proposition, and it has already succeeded.

"Kansas City will be the great center for this new trade inasmuch as the fruit for the foreign markets will be shipped here and kept in cold storage until shipped abroad," concluded Mr. Goodman. "It will increase wonderfully and may be said to inaugurate a new era for the fruit growers of this state."

In line with the commercial feature of the Missouri fruit display at Paris Mr. Brackett wrote Mr. Goodman as follows:

"The exhibit has attracted considerable attention from Englishmen, Germans, Austrians and Prussians especially and will do much, I am sure, to enlarge the foreign market for fruit."

Elaborate Waistcoat For Women.
A new waistcoat has made its bow to the Parisian public and seems to have hit feminine fancy. It is of white taffeta embroidered or painted in water colors with small roses and is made like a man's waistcoat, with a strap and buckle in the back, says the New York Sun. Being worn with a bolero or Eton, there is no pretense of hiding this buckle, which is of the most elaborate character and matches the handsome buttons which in front fasten the waistcoat over a jabot of costly lace.

CAVES CONTAIN ICE.

Huge Quantities of It in Subterranean Caverns.

Comparatively few freezing caves are known as yet west of the Mississippi, but there is no doubt that many will be discovered in time, as freezing caverns are not an uncommon phenomenon. Some of these freezing caverns—incorrectly termed ice caves—are very large. In the one at Dobsona, Hungary, there is a mass of ice about 110 yards long, 65 yards wide and at least 15 yards deep. The formation and retention of subterranean ice always seems mysterious at first, but it is in reality a simple matter. In freezing caves the entrance is always above the body of the hollow and the cold air of winter sinks down into the hollow, and on account of its weight is not easily displaced by the lighter warm air of spring or summer. The cold of winter thus permeates the hollow, and when thawing snows or spring rains supply drip water to the cave the cold within freezes the drip into a mass of ice, in some cases large enough to last through the following summer. There are at least four other theories in regard to the formation of underground ice, but they do not stand the test of observations.

Boer Prisoners Get Bibles.

The British and Foreign Bible society is providing all Boer prisoners with Bibles printed in Dutch, and the plan will be carried out within a few weeks. The society might save its money. It's a queer sort of Boer who doesn't carry a Dutch Bible, and most of them, like Oom Paul, know much of it by heart.—Exchange.

STREET ASSESSMENT NOTICE.

Office of Street Assessment Committee, City of Janesville, Sept. 4, 1900.

The common council of the city of Janesville, having decided that it was expedient and necessary that Division street, from the southerly side of South Third street to the northerly side of Oakland avenue in the Third Ward, and North First street, from the easterly side of North Main street to the westerly side of East street, in the Second Ward, be improved by grading, at the expense of the real estate to be benefited thereby, and having ordered that the Street Assessment Committee view the premises and determine the damages and benefits which will accrue to each parcel of real estate affected by such change and improvement; the entire cost of the contemplated work or improvement upon said portions of said streets, and the amount that should be assessed to each parcel of such real estate as benefits or damages accruing thereto by such contemplated work or improvement.

Now, therefore, notice is hereby given that in pursuance of said order, plans and specifications for said work have been prepared and approved, and the entire cost of the improvement contemplated in said plans and specifications determined, that we have viewed the entire territory and each parcel of real estate affected by said improvement, and determined the damages and benefits which will accrue to each parcel of real estate by reason of said improvement, and the amount that should be assessed to each parcel of real estate as benefits or damages accruing thereto by such contemplated work or improvement.

Notice is further given to all persons interested that said report is now on file open for review in the office of the Street Assessment Committee, in the city clerk's office, in said city, and will be so continued for the space of twenty days after the date of this notice, and that on the 25th day of September, 1900, at 2:30 o'clock in the afternoon, the said committee will be in session at their said office to hear all objections that may be made to said report.
